5TH ANNUAL H₂O HACKATHON POSTPONED

[STOCKTON, CALIFORNIA, March 12, 2020] Given the growing concerns around COVID-19, iHub San Joaquin and the H₂O Hackathon steering committee have made the difficult decision to postpone the 5th Annual H₂O Hackathon originally scheduled for Saturday, March 21, 2020. The decision comes after close review of health guidance from the Centers for Disease Control and Prevention (CDC), World Health Organization (WHO), and the California Department of Public Health (CDPH) under the direction of Governor Gavin Newsom. We are exploring options to reschedule the event and will notify participants and the public when a new date is announced.

###

iHub San Joaquin is one of California's innovation hubs designed to stimulate economic development and job creation by providing the linkage between technology leaders, entrepreneurs, investors, and educational institutions through a variety of programs and services. The H₂O Hackathon competition challenges students in San Joaquin County to develop applications to solve water issues in California through technology.
