266	no	MWDPRA-SEJ0001575	10/19/2017	email f Justin Yeh to Wang Churching	re: Revised Article - Attachment with chinese characters in file name ---California Water Fix, etc. Just states "Please only change if there is a typo" Looks like a ghost article? Email from yeh_sr@yahoo.com
267	no	MWDPRA-SEJ0001576	2/6/2018	email f Steve A to Roger P and Jeff Kightlinger	FW Two Tunnels / 1 Tunnel - states that Stephen go email from Karl Seckel and that he would need to discuss with Jeff (Kightlinger) before getting back to Karl about his email to Stephen about Dry Year Yield, and impact between 1 tunnel or 2 tunnels
268	no	MWDPRA-SEJ0001577	2/6/2018	email f Roger to Stephen and Jeff K	re: #267 - referenced email about Two Tunnels / 1 Tunnel. Roger concludes that they need to further research representative years, but that there is "definitely more dry year yield with the tunnels (1 or 2) than the current system
269	yes	MWDPRA-SEJ0001578	2/6/2018	email f Steve A to Roger P and Jeff Kightlinger	Reply to #267. concludes that tunnels "certainly more transfer capacity, but in critical or even dry years, capacity is usually not constraining, it's the water transfer availability."
270	yes	MWDPRA-SEJ0001580	2/6/2018	email f Roger P to Steve & J	Reply to #267 - "sounds right, but need more time to look."
271	yes	MWDPRA-SEJ0001582	2/6/2018	email f Steve to Roger & J	Reply to #267 - that his answers were in context of full project implementation
272	no	MWDPRA-SEJ0001584	2/6/2018	email f Jeff K to Steve A and Roger	Reply to #267 - states that referencing storm events for 2014-15.., "There would have been a net gain for for MWD of about 200,000 af even in a dry year." That is is all in context of taking advantage of storm events
273	no	MWDPRA-SEJ0001585	2/6/2018	Stephen A to Jeff and Roger	Reply to #267 - Thanks
